⇒ Disadvantages or limitations!

1- can't learning in the second knowledge base It points and one of the second of the

2- limited knowledge

1 3- Mechanical Reasoning

4-Typical expert system cannot generalize through analog to reason about new situations in the way people can

5- A knowledge acquistion
bottleneck results from the
time - Consuming and labor
intensive task of building
an expert system.

493.

- provide asolution faster than human experts can bull by a rail ES slightly with a solution faster than

a number of locations at the Same time or in ahostile environment that is dangerous to human health ??

Support system > Tosks of knowledge Eng * Knowledge Acquistion هوالطرق الله بيجمع ببعل *ES &- It is an Information System knowledget knowledge engineers Collect the Knowledge From an Umain expertly Es es tal expert in specific field to an Interview - it into us is is Computer System. lito, questionnaire gr * Decision Support System (DDS) * Knowledge Modeling. an Information System designed is la knowledge engineer 1/2000 to help managers select one Representation of many atternative Solutions. explainting e anisi of luminos * Knowledge encoding crue Decision supports ystem JINT8 Foots of Knowledgelling do = كا قرار كالم مش هنفذه الماحرة al System engineers) rules g أحتار القرار اللي عامل . (0) 5,501 Ighan Knowledge engineel > Knowledge acquistions-Complete 1920 - liss by O Knowledge acquistion facility = automate way for the user -> Cognitive Science 8-Cognitive is the Study of how to enter knowledge in the system by passing the explicit coding human process information - In other words. Cognitive is the by knowledge engineer study of how People think, especially When Solving Problems - @ Knowledge acquistion facility =provides a Convenient and efficient means of capturing and storing all components of the knowledge base

Elementss-Priori Knowledge vs Posteriory knowledge What is the role of Inference engine? Ly Forward charning of Buckword Chaining anto viss > Priori vs Posterior: Knowledge. * Priori Knowledge: That Which preceds · Independent of the senses . Universally True · cannot be denied without Contradiction 1+2=3 5% Priori هي معلومة عندى مين ماتاحة استنتح سفا حامة لأنفا مع وقة زى مثلاً إ مع الحرى زوايا المثلث 180° * Posterior Knowledge. Derived from the senses

- No always reliable

new knowledge w/o the

necessity of Contradiction

- Deniable on the basis of

what is the vole of Inference engine?

Inference engine II no muse

reasoning from facts to the conclusions resulting from those facts
facts
facts al vari CIPS I site mising good I long from Rules

2 Bockword chaining s-reasoning in reverse From a hypothesis a potential conclusion to be proved to the facts that support hypothesis.
